About Us

The 3 Arrows Group is a group of companies which includes The 3 Arrows Nirman Pvt. Ltd. a leading and rapidly expanding Construction & Warehousing company and The3 Arrows Films Pvt. Ltd. - a house of Film Production & Distribution founded by Mr. Kapil Dalal.

We are into the construction business since 2006 and we are officially registered in Companies Act, in March 2013 as "THE 3 ARROWS NIRMAN PVT. LTD."

We are always in the forefront in providing high quality construction & Warehousing services and aims to become one of the best leading companies in India.

We are proud that many of our projects are for "repeated clients" who comes back to us for additional projects knowing they will receive superior quality and service. Our company is manned by a highly qualified, competent, motivated, energetic and dedicated staff consisting of architects, engineers, technicians, supervisors, workmen from the field of engineering and construction.

Timely completion, high standard quality and safe working environment are the main pillars of our successfully executed projects. We at The 3 Arrows Nirman Pvt. Ltd. put these objectives before us once we start a project. You'll see benefit from our experience, skill and construction expertise. Our work speaks for itself as far as quality and uniqueness are concerned.

With its proven track record and dedication to excellence, our company supports every project – from large, complex projects to small scale building - with outstanding leadership and commitment thus creating its reputation as one of NCR's most dynamic and versatile construction company.

If you are looking for a reliable and dependable civil construction & warehousing services provider, then THE 3 ARROWS NIRMAN PVT. LTD. is the name that you should trust upon. The Company has proven itself again and again by executing demanding construction projects with ease, effectively and efficiency that is required for such large projects.

Mission Statement

Warehouses

Primary members are the main load carrying and support members of a pre-engineered building. The main frame members include columns, rafters and other supporting members. The shape and size of these members vary based on the application and requirements. The frame is erected by bolting the plates of connecting sections together. All the steel sections and welded plate members are designed in accordance with the application sections as per latest international codes and standards such as AISC, AISI, MBMA and is to meet all the customer specifications. Minimum field strength is 345 MPA for Primary Members.

THE 3 ARROWS NIRMAN

Warehouses

Secondary Framing Systems : Secondary structural framing refers to purlins, girts, eave struts, wind bracing, base angles, clips and other miscellaneous structural parts.

Purlins, girts and eave struts are cold formed steel members which have a minimum yield strength of 345 MPa (50,000 psi) and will confirm to the physical specifications of ASTM 572 (Grade 50) or ASTM A653 (Grade 50) or equivalent)

Roof & Wall Cladding Systems

Galvalume : Superpolyester XRW, Silicon modified polyester or fluoropolymer 20 microns top coat over primer (finished side), neutralback coat of 5 micron over primer (back side).

Galvanised Steel : Polyester top coat of 20 microns, over primer of 5 microns (finished side), with back coat side

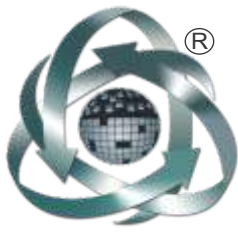

Technical Specification : Permanently colour coated, profiled sheet with Hi-Rib depth of 30mm at minimum 200 mm pitch distance over purlins and fixed with self drilling galvanised fastener. Profiled sheet shall be roll formed out of desired material (Viz. galvanised steel, galvalume) of desire thickness & paint finish to sheet shall be fixed over the purlins with hexagonal head self-drilling fasteners including Neoprene /EPDM washer on each crust of Sheet. The fastenres are fixed mechanically using electric tool through crests & trough.

Interior Works

Interior design is all about how we experience spaces. It's a power, essential part of our lives and affects how we live, work, play, and even heal. Comfortable homes, functional workplace, beautiful public spaces -- that's interior design at work.
